

ComicCraft – AI Comic Story Creator

Brainstorming & Ideation Phase

Project Title: ComicCraft – AI Comic Story Creator

Problem Statement: Creating a complete comic manually requires story writing, character development, dialogue, artwork creation, panel arrangement, and export.

Proposed Idea: ComicCraft converts a user's story idea into a five-panel comic with narration, dialogue, artwork, and PDF export.

Objectives: Generate five connected panels, narration, dialogue, artwork, and a downloadable PDF through a simple web interface.

Technology: Python, FastAPI, HTML, CSS, JavaScript, Jinja2, Gemini AI, Hugging Face, Pillow, and FPDF2.

Expected Outcome: A user enters story details and receives a five-panel comic and PDF.
